THE SPECIALISTS IN SPECIALTY TAPESSM

- **Kapton electrical tapes** are used in high voltage/high temperature electrical assemblies.
- These tapes offer excellent dimensional stability and low moisture absorption.

8358 Polyimide Tape

- **8358 Polyimide tape** is made from 2 mil polyimide for applications that require extra electrical resistance and puncture or tear resistance.
- It is also used as a high temperature [masking tape](#) for gold finger contacts during wave soldering, and as a masking tape for powder painting.

8258 Polyimide Tape

- **8258 Polyimide Tape** is a high temperature tape for use in high voltage/high temperature electrical assemblies.
- It is also used as a high temperature masking tape for gold finger contacts during wave soldering, and as a masking tape for powder painting.

8058DC Polyimide Tape

- **8058DC Polyimide Tape** is a high temperature double-coated tape for use in high voltage/high temperature electrical assemblies.
- It can be used for the attachment of heat sinks, sensors and electrical components in high temperature situations.
